

## Redefine the reach of reliable testing... with cobas® Plasma Separation Card

### ...Save The Date...

#### Diverse infrastructure demands innovative solutions:

- Where HIV/AIDS hits communities hardest...
- Where access to power supplies is unreliable...
- Where transport can be a long and arduous task...

Innovative sample collection options can make reliable testing available to those who need it most. The cobas® Plasma Separation Card helps tackle the HIV/AIDS epidemic by making sample collection simple and achievable in remote and challenging areas

*Join us for an interactive & practical workshop on how the cobas® plasma separation card can help you reach 90:90:90*

#### **cobas® Plasma Separation Card Workshop**

**Date:** Tuesday, 11 December 2018

**Time:** 12:30 until 14:00

**Venue:** Kano Conference Room

This workshop is open to lab scientists, health care workers, clinical support staff or implementors of HIV testing platforms and monitoring solutions for your national programs. Kindly register: [roche@unagency.co](mailto:roche@unagency.co)
